Secondary Road	Ridge/Physical Feature	<i>Intermittent Stream</i>
Jeep Trail/Walkway/Ferry	Property/Fence Line	<i>River/Lake</i>
Railroad	Nonvisible Boundary	<i>Glacier</i>
Military	Inset	Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A '*' following a place name indicates that the place is coextensive with a MCD, 'A '' indicates that the place is also a false MCD; the false MCD name is not shown.

² A '*' following a block number indicates that the block number is repeated elsewhere in the block.

UPPER KEYS CCD 93471

A map illustrating the international boundary between the United States and Cuba, along with specific maritime boundaries. The international boundary is marked by a red line with small star-shaped markers. A portion of this line is labeled "INTERNATIONAL BOUNDARY". Two additional boundary lines are shown as red lines with star markers, extending from the international boundary towards the north. One of these lines is labeled "MONROE 087" and the other is labeled "FLORIDA 12". The area between the international boundary and the Monroe 087 line is shaded in light blue, representing International Waters. The area between the Monroe 087 line and the Florida 12 line is also shaded in light blue, representing another set of International Waters. The Florida 12 line extends further north than the Monroe 087 line.

The image contains two parts. On the left is a 3x3 grid representing sheet locations. The top row has the first column shaded dark gray and the second column labeled '1'. The middle row has the first column labeled '3' and the second column labeled '4'. The bottom row consists of three empty dark gray squares. To the right of the grid is the text "Sheet Location with". Below this text is a small, stylized map of a coastline or river system.
